All the praise goes to the designer of **the Majestic Creek Country Club** golf course --- who has succeeded in developing an admirably interesting, as well as thoroughly challenging course. Huge amounts of earth were moved and artfully molded to create numerous waterways and expansive fairways that just do not seem to stop rolling and which were all beautifully lined with palm trees. The greens are fast and tricky. This writer had great difficulty in reading the greens and had to rely heavily on the advice of his most able caddy who appeared to be extremely competent in this regard, coupled with his total knowledge of the course. He (the caddy) was finely tuned to the condition of the greens, in assessing the lie of the ball and the best way it should be played. This expert guidance was well worth the average caddy tip of Baht 150.
